ABOUT US

Engineering Safety. Delivering Trust.

We are a dynamic and innovative engineering solutions company, committed to safeguarding lives, assets, and operations.

With over 30 years of combined expertise, we partner with organisations to achieve compliance, reduce risk, and ensure reliable fire protection systems.

Our Mission: To deliver turnkey fire safety solutions that guarantee compliance, minimize downtime, & protect what matters most.

Our Vision: To be Africa's most trusted provider of engineering-driven fire protection & compliance solutions, setting the standard for safety and reliability.

Our Values: No shortcuts. No compromises. Only excellence. We deliver quality, accountability, and fast response – always.

Transformation Commitment: As a proudly B-BBEE Level 2 company, we uphold accountability not only in engineering but also in advancing transformation and inclusivity.

PHILOSOPHY

Why We Exist

Our philosophy is simple: safety first, quality always.

We believe that every fire system must work when it matters most. That means no shortcuts. No compromises. Only excellence.

We foster a supportive, inclusive environment for our team, ensuring that excellence flows through every project we deliver.

**Leadership You
Can Trust**

OUR CORE

Sizo Nkosi Director

Sizo Nkosi leverages over a decade of telecommunications infrastructure experience to drive the expansion of industrial fire suppression systems across Africa and the Middle East.

Expert at navigating strict regulatory frameworks, he bridges the gap between complex technical assets and mission-critical corporate safety.

Sizo secures the high-value enterprise partnerships and complex commercial agreements required to deploy advanced, compliant safety infrastructure at scale.

Jerry-Lee Lewis Co-Founder

Co-founder of FJ Group Africa, Jerry-Lee brings extensive fire protection and life safety expertise to enterprise clients.

Specialising in detection, suppression, sprinklers, and compliance, he delivers practical, high-efficiency engineering solutions for demanding commercial and industrial environments.

Jerry-Lee drives business development and project coordination, ensuring all installations strictly adhere to South African regulations while upholding an uncompromising standard of workmanship.

Francois Möller Co-Founder

Francois Möller, co-founder of FJ Group Africa, brings nearly three decades of elite fire industry expertise to commercial management and strategic product development.

Driven by an uncompromising commitment to quality and meticulous attention to detail, he has spent 28 years advancing industry standards.

Francois combines disciplined leadership with technical innovation to deliver high-compliance, mission-critical fire suppression systems for demanding commercial and industrial applications.
